Attachment to Notice of Allowability

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Thomas Kowalsky on 3/12/2007.

The application has been amended as follows:

Claims 20, 24 and 30 have been cancelled.

Claims 21 and 22 have been rewritten as follows:

--21. An isolated equine GM-CSF polypeptide comprising the amino acid sequence as set forth in SEQ ID NO: 9.

22. An isolated equine GM-CSF polypeptide which has an equivalent adjuvant effect, immunity stimulant activity, and species-specificity as that of the equine GM-CSF as set forth in SEQ ID NO: 9 wherein the isolated equine GM-CSF polypeptide is encoded by an isolated DNA molecule that is at least 90% identical to SEQ ID NO: 8.--

In claim 25, following " SEQ ID NO: 8", the entire remainder of the claim, beginning with "and encodes..." has been deleted.

In claim 26, following " SEQ ID NO: 8", the entire remainder of the claim, beginning with "and encodes..." has been deleted.

In claim 27, second line, prior to the word "excipient", the word --diluent-- has been inserted.

Also in claim 27, "claims 20-26 or 44" has been amended to read --claims 21-23, 25-26 or 44--.

In claim 29, prior to "the composition of claim 27", the phrase --an effective amount of-- has been inserted.

Claim 44 has been rewritten as follows:

Art Unit: 1647

--44. An isolated equine GM-CSF polypeptide consisting of the amino acid sequence of SEQ ID NO: 9.--

Reasons for Allowability

The following is an examiner's statement of reasons for allowance: In the conversation with Mr. Kowalsky made of record above, the Examiner indicated that because claims to a fusion protein were issued in parent patent 6,645,740, that obviousness-type double patenting exists between those claims and the claims herein that "comprise" equine GM-CSF. Mr. Kowalsky agreed to file the appropriate terminal disclaimer.

The terminal disclaimer filed on 3/14/2007 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Patent No. 6,645,740 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
